

EXPERIENCE

Senior Systems Engineer & Freelancer	2019 - Sep 2023 - Present
Cognizant Technology Solutions	Chennai
• Designed and delivered AI-enabled enterprise applications and agentic workflows using Python, TypeScript, APIs, and cloud-native architectures, taking solutions from rapid prototypes to production-grade systems. • Built LLM-powered enterprise systems using GPT, Claude, Gemini, Llama, and open-source models, implementing RAG pipelines, prompt engineering, semantic retrieval, and workflow orchestration for intelligent automation use cases. • Developed and integrated multi-agent and automation workflows using LangGraph, CrewAI, AutoGen, n8n, and event-driven architectures, enabling autonomous task execution, reasoning, orchestration, and API integrations across enterprise systems. • Worked extensively with structured and unstructured enterprise data pipelines, designing vector-search and RAG-driven systems to improve contextual retrieval, reduce hallucinations, and enhance response accuracy. • Led and contributed to Identity & Access Management (IAM) initiatives managing 150,000+ identities across Microsoft Entra ID, Okta, and Active Directory, implementing 30+ API, PowerShell, and Python-based automations while supporting 300+ SSO integrations, tenant migrations, and operational workflows. • Acted as a high-agency builder and rapid prototyper, independently translating ambiguous business requirements into production-ready AI solutions, collaborating across stakeholders to solve integration, operational, and workflow challenges.	

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, Go, Rust, PowerShell
LLM Engineering & Agentic AI: GPT, Claude, Gemini, Llama, Prompt Engineering, RAG, Semantic Search, Hybrid Retrieval, Multi-Agent Systems, MCP Concepts
AI Frameworks & Orchestration: LangChain, LangGraph, CrewAI, AutoGen, n8n, Streamlit, Chainlit, Transformers, LLM Integration
Vector Databases & Retrieval: FAISS, Chroma, Contextual Retrieval, PageIndex
Backend Engineering: Python, FastAPI, Node.js, REST APIs, Microservices, Event-Driven Architectures
Observability & Reliability: Prometheus, Grafana, Logging, Metrics, Tracing, Debugging, Operational Monitoring
Containerization & Infrastructure: Docker, Kubernetes, CI/CD Concepts, API Integrations
AI-Assisted Development: Cursor, GitHub Copilot, ChatGPT, Claude, Gemini, Windsurf, Rapid MVP Prototyping

PROJECTS

Enterprise GenAI Transformation for IAM & Cybersecurity	Jan 2024 - Dec 2025
Led the development of an production-oriented GenAI platform for IAM, PAM, and cybersecurity operations, integrating Microsoft Entra ID, Okta, SailPoint, and CyberArk. Implemented RAG pipelines, AI-assisted troubleshooting, multi-agent orchestration, semantic retrieval, and secure API integrations using LangGraph, LangChain, CrewAI, AutoGen, React.js, Python, and cloud-native architectures.	
N8N Automation Portfolio	Jul - Dec 2025
Built a portfolio of AI-enabled enterprise workflows using n8n, integrating LLMs, APIs, vector search, automation pipelines, AI agents, inbox orchestration, resume intelligence, content automation, and operational workflows.	
OWASP-Based IAM Security Operations Platform	Aug 2025
Led a team as Project Lead to architect and deliver a one-week rapid prototype MVP for an OWASP-aligned IAM Security Operations platform, implementing AI-assisted operational workflows, risk detection, log ingestion, semantic reasoning, and SSRF mitigation across Entra ID, Okta, and enterprise IAM systems.	

EDUCATION

Bachelor of Technology in Computer Science and Engineering (Cyber Security)	2019-23
Veltech University, Chennai	CGPA: 9.02
Higher Secondary School (10th 12th MPC)	2017-19
Maria M.H.S.S., Chennai	Percentage: 96 77.5

ACHIEVEMENTS & CERTIFICATIONS

Certified Speed Typist Ratatype certification: 68.4 WPM, 98.8% accuracy	Jul 2025
2xBronze Coral Amber Award Delivery excellence & mentoring 120+ cohorts	2023 - 2026
